Re: House Bill 5184

Ladies and Gentlemen,

The Rochester Regional Chamber of Commerce Board of Directors has discussed the electricity deregulation measures set forth in HB 5184 pending before your committee. Our Board of Directors has resolved to neither support nor oppose HB 5184 at this time. Our Chamber must further investigate the implications of HB 5184 upon our membership, as well as the communities of Rochester, Rochester Hills and Oakland Township, Michigan that we serve before we can take a position on this important energy policy matter.

Thank you,

Rochester Regional Chamber of Commerce
Board of Directors

John D. Gaber, Chairperson
